PSC DA01
SAM.gov Active, All Awards

Custom software engineering for data integration, automated reporting and business-process automation. Delivered under a written scope, with documentation, test evidence and run logs for every system. SBA-certified Veteran-Owned Small Business (VOSB), SAM-registered, Indiana-certified.

CORE COMPETENCIES

- **Data integration and ETL.** Scheduled collection from external systems and APIs, validation on intake, field-level data mapping maintained as sources change, every run logged.
- **Document processing and reconciliation.** Scanned and unstructured records converted to structured data (OCR), matched line by line against system records, exceptions flagged for user decision with a full audit trail.
- **Automated reporting and dashboards.** Reports and status views generated from data on a schedule, checked against reference values, and published to web or Excel without manual steps.
- **Monitoring and operations consoles.** Single-view health, fault and data-gap monitoring for running jobs, with session replay for defect diagnosis.
- **Public-facing web applications.** Static, mobile-first, accessible sites generated from structured data, with an automated audit before every release.
- **Documentation and knowledge transfer.** Operating guides, technical design notes, test evidence and logs delivered with every system so the customer can run it without the contractor.

PAST PERFORMANCE

- **Document processing and reconciliation application · American Trio LLC, commercial freight agent, Indiana · prime, sole performer.** Windows application that reads scanned carrier settlement statements, reconciles 200 transactions and $365K in billings against dispatch records, assigns each a payment status and exports to Excel; runs on the client workstation with no network access. Reconciliation workbook delivered and application released. 126 automated engine checks and 72 application checks pass on every build.
- **Scheduled data integration, reporting pipeline and operations console · company-operated · in production.** Daily collection from an external data API with validation and run logging; three scheduled reports per business day published through a third-party API and scored against an authoritative reference in an append-only log; 75+ unattended publications; two public websites regenerated from data with a release audit.

Client reference (American Trio LLC) available on request.

DIFFERENTIATORS

- **Veteran owner-engineer.** U.S. Army veteran with over 20 years of military experience in logistics and operations; U.S. citizen; routine work with records handled under formal access and audit controls.
- **Verified before delivery.** Every build ships with an automated test suite and recorded run evidence; installers are tested on a clean Windows account before release.
- **Customer data stays with the customer.** Systems run on customer-provisioned infrastructure under credentials the customer controls; no credential that can alter records or move funds is ever held.
- **SBA-certified VOSB (VetCert, Nov 2026).** Indiana IVOSB and INSBP; approved Buy Indiana business; registered Indiana bidder. Available as a small-business subcontractor or teaming partner.
